📍 Kirkuk, Iraq

PROFILE

Ambitious 15-year-old programming enthusiast with a deep interest in technology and coding. Demonstrates exceptional problem-solving skills and a strong ability to quickly grasp and apply technical concepts. Experienced in various programming languages and platforms, including Java, Python, HTML, CSS, and Godot (GDscript). Driven by a strong desire to self-improve and gain deeper technical expertise, Saaeb is committed to creating innovative solutions and continuing to develop his skills in programming and game development.

EDUCATION

10th Grade (First year of an Industrial school)

Current student with a focus on science and technology, developing skills in problem-solving, logic, and technical applications.

Codingal

Java Developer

2024

- Completed a group of projects and quizzes, receiving training under Java experts.
- Certification supported by STEM, Google, and Amazon.

Codingal

Basic DSA Programmer

2025

- Worked on a series of projects and quizzes, with training from Java experts.
- Certification supported by STEM, Google, and Amazon.

RTS School

Programming (Python)

- Participated in projects and tasks, gaining experience in Python programming under the guidance of a Computer Science teacher.

Web Development (HTML & CSS & JS)

- Designed websites as part of hands-on projects.
- Mentored by a Computer Engineer.

[Link to Portfolio Video](#)

Game Development (Godot – GDscript)

- Designed and developed games as part of a self-learning initiative.

EXPERIENCE

Web Development Portfolio

[Saaeb's

2025

[Cyber security](#)

2025

- Developed various web development projects, showcasing skills in HTML and CSS.

Game Development (UI Developer)

[Ciphers Please](#)

2024

- Contributed to the UI development of a game using Godot (GDscript), applying design principles and improving user interaction.

Java Developer Projects and Tasks

[Saaeb's
GitHub](#)

2024-

2025

- Completed multiple Java development tasks and projects focused on programming logic, algorithms, and efficient coding practices.

Python Developer

- Developed a simple car game using Pygame and a calculator application with Tkinter, gaining hands-on experience in Python development.

SKILLS

- **Programming Languages:** Java, Python, Godot (GDscript), HTML, CSS
- **Tools:** GitHub, Pygame, Tkinter, Netlify, VSC, PyCharm
- **Web Development:** Website design and UI development
- **Game Development:** Game design using Godot
- **Problem-Solving:** Excellent analytical skills for debugging and solving technical challenges

LANGUAGES

- **English:** Proficient
- **Arabic:** Native (Classical and Iraqi)
